Audio Power	3 Watt
Transmission Distance	to earpiece < 40cm / to cellphone <10 meter
Bluetooth Compatibility	Bluetooth version 1.2 / 2.0
Integrated Microphone	Yes
Battery Type	340mah battery
Battery Life	Talking time 3 hours / Standby 180hours
Product Dimension & Weight	Watch L46xW42xH13mm Wristband W22xL82 & W22xL125mm

Package Includes

- 1 x Bluetooth wrist watch
- 1 x Recharge cable
- 1 x USB charger

Inductive Bluetooth Wrist Watch

<1>

Recharge and Activation

Before using the Bluetooth watch, please recharge for a few seconds to activate the battery.

The Red light will turn on whilst recharging.
Full recharge takes about 3 hours. When fully charged, the indicator will turn blue

<2>

Pair with Mobile Phone

A. Put the Bluetooth watch in pairing mode

- 1) With the Bluetooth watch powered off, press and hold Bluetooth switch for 6-10 seconds until both blue and red color indicators switch on.
- 2) If Bluetooth is switched on or indicator is flashing, press and hold Bluetooth switch for 5 seconds to turn off Bluetooth, then repeat above step 1).

B. Put Mobile phone in pairing mode

- 1) Go to mobile phone panel, turn on Bluetooth function and search for new Bluetooth device.
- 2) Select "T-Watch" then press "OK" or "YES".
- 3) Enter password "0000" and press "OK".

* Once paired, indicator changes from flashing to blue.
Some mobile phones need manual connection

Note: If you can not switch on Bluetooth, please delete the paired devices and try again.

<3>

Wear the Wrist Watch

Wear watch on left or right wrist dependant on earpiece. Put hand on desk while sitting on the desk.

Audio should now be clear in the earpiece

You can increase or reduce the volume using the buttons on the left hand side of the watch

<4>

Battery & Recharge

To save battery power, please turn off power if not using for a long time.

Turn off - Press and hold Bluetooth switch until indicator flash then switches off

Turn on — Press and hold Bluetooth switch until indicator changes to blue color. If already paired with mobile phone and Bluetooth function in mobile phone is turned on, it will connect to mobile phone automatically.

** Some mobile phone models do not support this function.*

The full performance of a new battery is achieved only after two or three complete charge and discharge cycles. The battery can be charged and discharge hundreds of times, but it will eventually wear out.

When recharging the battery use only original default USB recharge cable and default wall charger. Do not leave a fully charged device on recharge power source. Overcharging may shorten battery life. If left unused, a full charged battery will lose its charge over time.

Inductive Bluetooth Wrist Watch

Operations	
Make a voice dial call	Press Bluetooth switch and speak name after tone
End a call	Tap Bluetooth switch
Receive a call	Tap Bluetooth switch
Reject a call	Press and hold switch until BEEP

Change Red to Blue with adaptor plugged in	Charging Completed
No indicator without adaptor plugged in	Power use off
Blue and Red are turns on	In pairing mode
10 rapid flashes in Blue	Pairing Successful
Slow pulse in Blue	Connected

Troubleshooting

Q. Why is not the neckloop working with my phone?

A. Please make sure the Bluetooth is switched on in your mobile phone and that the neckloop is in pairing mode. Also mobile phone need to be within 10 meters from Bluetooth neckloop in open space. Try powering on/off the phone and neckloop and try again.

Q. Why can I not pair with my mobile phone?

A. 1) Make sure Bluetooth switch has power. Please recharge for 3 hours and try again.
2) Clear the paired Bluetooth devices and try again.

Q. Audio is too quiet, why?

A. The defined transmit distance from Watch to Earpiece is 40cm. Make sure there is no obstacle between them, such as the shoulder. Heavy clothes may also block the signal especially any metal materials

Q. Why do I hear interference in invisible earpiece?

A. If earpiece has no quality problem, the volume is likely too loud. Reduce the volume on the volume controller.

Warranty and return policy

Default warranty is 12 months since ship date.

We do not accept return if product has no quality problem.

If product is within warranty and becomes faulty, you can return it for replacement or repair.
No returns accepted for unwanted items for hygiene reasons
